

# Helping Children Volunteer Service-Learning

Volunteers are needed immediately to raise awareness and necessary funding for Helping Children to grow and make a difference in children's lives!

Volunteers will each receive a Helping Children of Abuse T-shirt to keep in appreciation for your individual service of four hours.

Volunteers can pass out Breaking the Cycle Tags and raise funds anywhere citywide by approval and permission of the Chicago City Council. Before school, after school and on weekends, all day, every single day until city permission expires at midnight on October 31st!

Volunteering can be one of the most beautiful expressions of you. We need you to help us make a more beautiful world possible for our children. Please contact Helping Children of Abuse right away!

Helping children become helping people to help our world.

Helping Children is a Volunteer-Based Charity 501(c)(3) Organization. Please visit our website for more information.
